

Products include:

- Bags
- Pouches
- Sleeves
- Tubing
- Sheets
- Multi-Packet Bags
- Multi-Compartment Bags
- Corner Protectors
- Elastic Covers
- Die Cut Shapes

Premier Protective Packaging

Premier specializes in the production of custom designed protective packaging. Our cost-effective packaging provides endless solutions for products that are prone to damage and abrasion during the shipping process.

Premier routinely makes customers packaging samples to ensure the proper protection for their products.

OUR PRODUCTS ARE MANUFACTURED FROM

Polyethylene Bubble

1/8, 3/16, 5/16, and 1/2 inch thickness

Cost-effective packaging with outstanding protection from damage caused by shock, vibration, or abrasion.

Reusable & Recyclable

OUR PRODUCTS ARE MANUFACTURED FROM

Spun Bond Polypropylene

0.75 to 2.25 ounce weights

Ideal for delicate surface protection against scratching and marring when cushioning is not required.

Reusable & Recyclable

OUR PRODUCTS ARE MANUFACTURED FROM

Polyethylene (PE) Foam

1/32, 1/16, 3/32, 3/8, 1/8, 3/16, 1/4, and 1/2 inch thickness

Durable and long-lasting, PE foam protects products from impact damage, marring, or scratching.

Polypropylene Foam

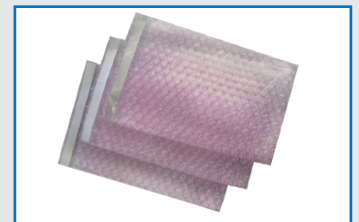

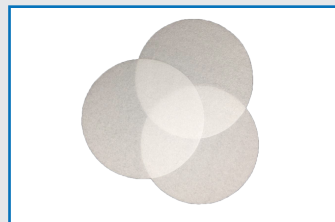

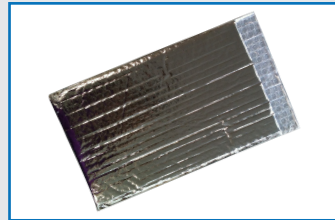

1/20, 1/16, 3/32, 1/8, 3/16, 1/4, and 1/2 inch thickness

Similar to PE foam, yet with higher service temperature, lower slip, and better insulation properties.

 Reusable & Recyclable

Specialty Products

- Anti-static additives for electronics and vapor corrosive inhibitors for sensitive metals.
- Laminations of films to foam, bubble, and spun bonded polypropylene fabric for increased material strength and puncture resistance.
- Metalized laminations to create a reflective surface for increased thermal properties.
- Color and printed materials for products identification and instructions.
- Die cut foam and spun bond sheets
- Steering wheel covers with elastic
- Small foam, bubble, and spun bond pouches
